

## Cylinder Mounting Strap

### Single Cylinder

#### Application

Cylinder straps are used to secure the cylinder in place, on a single cylinder system, in accordance with NFPA 12 requirements. The straps may be secured to any structurally solid surface. Anchoring into plaster or any other facing material is not acceptable.

#### Description

Cylinder Straps are made of steel, primed and painted red with a baked enamel finish for corrosion resistance. All mounting hardware is supplied by the system installer.

#### Specification

Material	Carbon Steel
Finish	Red Gloss Enamel
