FOAM

Master 150

General Description

Reliable and continuous production is essential for the success and stability of any industrial operation. However, fire remains one of the most serious risks that can disrupt operations, causing significant financial losses, production downtime, and potential damage to critical facilities. To address this challenge and meet the market demand for an efficient mobile firefighting solution.

SFFECO introduced the Foam Master 150, the first unit of its kind manufactured in the Kingdom. Designed to effectively combat oil, chemical, and solid material fires, the Foam Master 150 features a 150-liter foam concentrate capacity, providing a dependable supply for firefighting operations.

The SFFECO Foam Master is engineered for quick deployment and ease of use, making it ideal for responding to flammable liquid fires and chemical spills, and can be efficiently operated by a single person during emergency situations.

Components:

- ❖ Foam Tank : Carbon Steel / Stainless Steel
- ❖ Foam Eductor : 2", 1% - 6% Adjustable Proportioning
- ❖ Fire Hose : 1 3/4" dia or 1 1/2" 15M (2 nos.)
- ❖ Foam Branch Pipe
- ❖ Foam Branch Pipe with Ball Valve

Options: Special foam nozzles and branch pipes available

Features

- ❖ Fully controllable, can be operated by one person only.
- ❖ Tough construction, manufactured from first class steel sheet electroplated coated inside and outside to resist corrosion.
- ❖ Minimal servicing requirements.
- ❖ Suitable for different types of foam concentrate.
- ❖ Large diameter filler cap which allows adding foam concentrate to tank while extinguishing fire.
- ❖ Can protect fuel and other chemical tank and ware houses small to medium sizes by direct connecting the unit to a pre-laid pipes. Please contact us for further technical information.

Standard Models and Capacities

Model	Capacity
FM 150	150 Ltr
FM 200	200 Ltr
