Hydrant Cabinet & Accessories

- ❖ Quick Access
- ❖ Durable Construction
- ❖ Corrosion Resistant
- ❖ Secure Storage
- ❖ Easy Installation

Quality Approvals for Various Products and Services

General Description

A fire hydrant cabinet is a protective enclosure designed to house fire hydrant equipments, hoses, nozzles, and related firefighting equipment. Its primary purpose is to ensure that all essential firefighting tools are organized, easily accessible, and safeguarded from environmental damage, dust, or tampering. These cabinets are commonly installed in commercial buildings, malls, hospitals, and other facilities where quick response to fire emergencies is critical. The advantages of using a fire hydrant cabinet include enhanced equipment longevity through protection against corrosion and impact, improved safety by keeping equipment secure yet readily available, and compliance with fire safety standards. Additionally, the cabinet ensures rapid deployment of firefighting resources during emergencies, helping minimize fire damage and protect lives and property.

Sffeco fire hydrant cabinets are available in customized size and design to meet architectural requirements.

Hydrant Cabinets

- ❖ SFFECO Fire Hydrant cabinets are designed to be weatherproof, and normally equipped with hoses, hose nozzles, hydrant wrenches, spanner wrenches, fire axe, flashing light, torch, etc as per customer requirement.
- ❖ SFFECO Fire hydrant cabinets are generally constructed as a vertical type single door cabinet.
- ❖ Cabinets are manufactured from Mild Steel or Stainless Steel material with a thickness of 0.9mm to 2.0 mm which depends on usage or customer request. (Standard is 1.2 mm)
- ❖ Cabinets can be painted with Powder Coated for elegant finish and protection from rust.
- ❖ Cabinets of stainless steel also available with hairline or mirror finish.
- ❖ Back box, Door and Frame can be of different thickness and material.
- ❖ Fire hydrant cabinets are available with self standing legs.
- ❖ The cabinets are available with all around folded edges without any sharp edges.
- ❖ Operation Instructions are silk screen printed in Arabic and English languages inside the cabinet.
- ❖ Hinges are available with Piano type / Bush Pin Hinges / Concealed Pin Hinges as per requirement.
- ❖ Pressure Reducing Valve or Lock Shield Valve are available upon request.
- ❖ Cabinet is designed to be weather-proof.
