Foam/Water Trailer Unit

- 500L to 2000L Tank Options
- Various Fire Pump Options
- Modular Design
- Upgrade Ready
- Equipment Compartments
- Corrosion Resistant
- Application Versatility

Quality Approvals for Various Products and Services

Trailer Unit

Foam/Water Trailer Unit

Body Work:

SFFECO manufactures robust, high-performance trailer-mounted fire-fighting units designed for a wide range of challenging applications. Equipped with Water / Foam firefighting agent, these units combine mobility, reliability, and operational efficiency to deliver rapid and effective fire suppression in critical situations. Engineered for industrial, commercial, and remote locations, SFFECO trailers ensure readiness and performance when every second counts.

Applications:

Ideal for industrial complexes, chemical plants, oil & gas facilities, remote sites, mining areas, warehouses, construction sites, and other operations.

Performance Assurance:

Engineered and tested to meet various fire safety standards and deliver consistent results under extreme conditions.

Key Features & Specifications:

- Heavy-duty construction with single or dual axle options for maximum stability and load-bearing capacity.
- Designed for rough, uneven, and off-road conditions with excellent maneuverability.
- Integrated high-capacity pumps engineered for consistent flow rates and rapid deployment.
- Optimized hoses, reels, and nozzles for controlled and effective agent application.
- Quick setup and simple operation for immediate response to emergencies.
- Various capacities of Foam Tanks are available on customer requirement.
- Minimal maintenance requirements.
- Modular design enables full customization to meet specific customer requirements and future upgrades, with optional compartments and corrosion-resistant materials available on demand.
- Available Pressure relief systems, secure locking mechanisms, and ergonomic access for operators.
